MATERIAL SAFETY DATA SHEET

1.Identification 1.1GHS Product identifier Polyacrylonitrile, average N Code P 4095	1w 150,000		
2.Hazard identification 2.1Classification of the sub no data available 2.2GHS label elements, inc Pictogram(s) Signal word Hazard statement(s) Precautionary statement(s) Prevention Response Storage Disposal 2.3Other hazards which do no data available	luding precautionary statemer no data available no data available	nts	
3.Composition/information 3.1Substances			
Chemical name	Common names and synonyms	CAS EC number	Concentration
poly(acrylonitrile) macromolecule	poly(acrylonitrile) macromolecule	25014-41-9none	100%
4.First-aid measures 4.1Description of necessar General advice Consult a physician. Show If inhaled If breathed in, move persor In case of skin contact Wash off with soap and ple	y first-aid measures this safety data sheet to the do i into fresh air. If not breathing nty of water. Consult a physici	, gi <mark>ve artifi</mark> cial respiratior	n. Consult a physician.
If swallowed Never give anything by mo 4.2Most important sympton no data available	y of water for at least 15 minut uth to an unconscious person. ns/effects, acute and delayed medical attention and special	tes and consult a physici Rinse mouth with water	. Consult a physician.

6.Accidental release measures

6.1Personal precautions, protective equipment and emergency procedures Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation.

Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.

6.2Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided. 6.3Methods and materials for containment and cleaning up

Pick up and arrange disposal. Sweep up and shovel. Keep in suitable, closed containers for disposal.

7.Handling and storage

7.1Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid exposure - obtain special instructions before use.Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2. 7.2Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

8.Exposure controls/personal protection

8.1Control parameters

Occupational Exposure limit values

no data available

Biological limit values

no data available

8.2Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. 8.3Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique(without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Respiratory protection

Wear dust mask when handling large quantities.

Thermal hazards

no data available	0-22	C S	
9.Physical and chemical pro	perties		
Physical state	white chalk-like solid	1	
Colour	no data available	With	
Odour	no data available		
Melting point/ freezing point			
Boiling point or initial boiling			
point and boiling range		Lin I	
Flammability	no data available		
Lower and upper explosion	no data available		
limit / flammability limit			
Flash point	0oC		
Auto-ignition temperature	no data available		
Decomposition temperature	no data available		
pH	no data available	1121	
Kinematic viscosity	no data available		
Solubility	no data available	. Xanna	
Partition coefficient n-	no data available		
octanol/water (log value)			
Vapour pressure 🛝 🛸	no data available		
Density and/or relative	1.184g/mLat 25°C(lit.)		
density			
Relative vapour density	no data available		
Particle characteristics	no data available		
_			
10.Stability and reactivity			
10.1Reactivity			
no data available			
10.2Chemical stability			
Stable under recommended			
10.3Possibility of hazardous	reactions		
no data available			
10.4Conditions to avoid			
no data available			
10.5Incompatible materials			
no data available	on producto		
10.6Hazardous decompositi no data available	on products		
no uata avaliable			

11.Toxicological information Acute toxicity Oral: no data available Inhalation: no data available Dermal: no data available Skin corrosion/irritation no data available Serious eye damage/irritation no data available Respiratory or skin sensitization no data available Germ cell mutagenicity no data available Carcinogenicity no data available Reproductive toxicity no data available STOT-single exposure no data available STOT-repeated exposure no data available Aspiration hazard no data available 12. Ecological information 12.1Toxicity Toxicity to fish: no data available Toxicity to daphnia and other aquatic invertebrates: no data available Toxicity to algae: no data available Toxicity to microorganisms: no data available 12.2Persistence and degradability no data available 12.3Bioaccumulative potential no data available 12.4Mobility in soil no data available 12.50ther adverse effects no data available 13.Disposal considerations 13.1Disposal methods Product The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems. Contaminated packaging Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials. 14.Transport information 14.1UN Number ADR/RID: Not dangerous goods. IMDG: Not dangerous goods. IATA: Not dangerous goods. 14.2UN Proper Shipping Name ADR/RID: unknown IMDG: unknown IATA: unknown 14.3Transport hazard class(es) ADR/RID: Not dangerous goods. IMDG: Not dangerous goods. IATA: Not dangerous goods. 14.4Packing group, if applicable ADR/RID: Not dangerous goods. IMDG: Not dangerous goods. IATA: Not dangerous goods. 14.5Environmental hazards ADR/RID: no IMDG: no IATA: no 14.6Special precautions for user no data available 14.7Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code no data available 15.Regulatory information 15.1Safety, health and environmental regulations specific for the product in question Common names and synonyms CAS number EC number Chemical name

Section 16: Other Information This safety data sheet should be used in conjunction with technical sheets. It does not replace them. The information given is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfill his obligations regarding the use of hazardous products.
