### MATERIAL SAFETY DATA SHEET

1.Identification 1.1GHS Product identifier Triphenyl phosphate, 99% Code T 2315	
2.Hazard identification 2.1Classification of the substance or mi Hazardous to the aquatic environment, Hazardous to the aquatic environment, 2.2GHS label elements, including preca Pictogram(s)	short-term (Acute) - Category Acute 1 long-term (Chronic) - Category Chronic 2
Signal word Warning Hazard statement(s) H400 Very toxic H411 Toxic to ad	to aquatic life quatic life with long lasting effects
Precautionary statement(s) Prevention P273 Avoid relea Response P391 Collect spin Storage none	ase to the environment. llage.
3.Composition/information on ingredien 3.1Substances	ts
Chemical name Common names and synonyms	CAS EC Concentration
triphenyl triphenyl phosphate	115-86-6 none 100%
In case of skin contact Wash off with soap and plenty of water. In case of eye contact Rinse thoroughly with plenty of water for If swallowed Never give anything by mouth to an und 4.2Most important symptoms/effects, ac no data available 4.3Indication of immediate medical atter no data available	ata sheet to the doctor in attendance. ir. If not breathing, give artificial respiration. Consult a physician. Consult a physician. or at least 15 minutes and consult a physician. conscious person. Rinse mouth with water. Consult a physician.
5.Fire-fighting measures 5.1Extinguishing media Suitable extinguishing media Use water spray, alcohol-resistant foam 5.2Specific hazards arising from the cho no data available 5.3Special protective actions for fire-figh	emical

Wear self-contained breathing apparatus for firefighting if necessary.

6.Accidental release measures

6.1Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.

6.2Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided. 6.3Methods and materials for containment and cleaning up

Pick up and arrange disposal. Sweep up and shovel. Keep in suitable, closed containers for disposal.

7.Handling and storage

7.1Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid exposure - obtain special instructions before use Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

7.2Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

8.Exposure controls/personal protection

8.1Control parameters

Occupational Exposure limit values

no data available

**Biological limit values** 

no data available

8.2Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. 8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique(without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Respiratory protection

Wear dust mask when handling large quantities. Thermal hazards

no data available

9. Physical and chemical properties white to off-white flake or crystal Physical state Colour no data available Odour no data available Melting point/ freezing 190\u00b0C(lit.) point Boiling point or initial 220\u00b0C/11mmHg(lit.) boiling point and boiling range Flammability no data available Lower and upper no data available explosion limit / flammability limit Flash point 110\u00b0C(lit.) no data available Auto-ignition temperature Decomposition no data available temperature pН no data available Kinematic viscosity no data available Solubility In water:insoluble Partition coefficient n- no data available octanol/water (log value) Vapour pressure 1.3 mm Hg ( 200 \u00b0C) Density and/or relative 1.2055 density Relative vapour no data available densitv

Particle characteristics no data available

10.Stability and reactivity 10.1Reactivity no data available 10.2Chemical stability Stable under recommended storage conditions. 10.3Possibility of hazardous reactions no data available 10.4Conditions to avoid no data available 10.5Incompatible materials no data available 10.6Hazardous decomposition products no data available

11.Toxicological information Acute toxicity Oral: no data available Inhalation: no data available Dermal: no data available Skin corrosion/irritation no data available Serious eye damage/irritation no data available Respiratory or skin sensitization no data available Germ cell mutagenicity no data available Carcinogenicity no data available Reproductive toxicity no data available STOT-single exposure no data available STOT-repeated exposure no data available Aspiration hazard no data available

12.Ecological information 12.1Toxicity Toxicity to fish: no data available Toxicity to daphnia and other aquatic invertebrates: no data available Toxicity to algae: no data available Toxicity to microorganisms: no data available 12.2Persistence and degradability no data available 12.3Bioaccumulative potential no data available 12.4Mobility in soil no data available 12.5Other adverse effects

no data available

13.Disposal considerations 13.1Disposal methods Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems. Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

#### Section 16: Other Information

This safety data sheet should be used in conjunction with technical sheets. It does not replace them. The information given is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfill his obligations regarding the use of hazardous products.
